## **Personal Profile**

Approachable Computer Science (Artificial Intelligence) undergraduate at Edinburgh Napier University with proficient experience in web and software development. Knowledgeable in building full-stack applications using JavaScript, Java, C++, C#, C, and MySQL, with practical experience from real-world projects. Seeking a Computer Science placement to apply technical skills, gain industry experience, and contribute to impactful development teams.

## **Education**

### **Edinburgh Napier University**

#### **BSc (Hons) Computer Science (Artificial Intelligence)**

Expected Graduation: 2028

- ❖ Relevant Modules
  - Database System (MySQL)
  - Programming in Java and C/C++
  - Object Oriented Software Development (C#)
  - Practical Networks (Routing, Switching and OSI model)
  - Web technologies (HTML, JavaScript, PHP, MySQL)
- ❖ Dissertation: Independent research on project with detailed reports explaining

## **Experiences**

### **Relevant Experience**

- 1) **Web Developer** at Sodick Services Ltd (Volunteer Experience) (May 2025)
  - Developed a **5-page responsive company website** using HTML, CSS, and JavaScript
  - Implemented a **contact form** that sends customer enquiries directly to company email
  - Deployed the website and configured **domain hosting**
- 2) **Web Developer intern** at Zidio (March 2024)
  - Built a **real-time location tracking application** within a 7-day sprint
  - Led **frontend development**, collaborating with team members under time constraints
- 3) **Web Developer** at Wiston Energy Ltd (May 2023 – July 2023)
  - Designed and developed a company website using HTML, CSS, and JavaScript
  - Managed company **domain configuration and email setup**

## Projects

### **1) Hair Discovery App (Ongoing)**

- Developing a cross-platform mobile application using **React Native (Expo)** and **TypeScript**
- Using **Firebase** for authentication and backend services
- Designed to connect service-based businesses with customers, improving product discovery

### **2) Personal Portfolio Website**

- Built a personal portfolio website to showcase projects and technical skills
- Implemented responsive design and deployed online

## Technical Skills

### **1. Programming Languages:**

C, C++, C#, Java, JavaScript, Typescript, PHP, SQL

### **2. Tools / IDEs:**

Docker, Git, IntelliJ, android Studio, Visual studio code, web flow, firebase

### **3. Framework:**

React, React native (Expo), Next.js, Tailwind, Bootstrap

### **4. Networking:**

Cisco Packet Tracer

### **5. Linux operating system (Ubuntu)**

### **6. Database: MySQL**

### **7. E-commerce: Shopify**

## Key Skills

- Problem-solving and analytical thinking
- Team collaboration (hackathons, group projects)
- Time management and meeting deadlines
- Communication with technical and non-technical stakeholders
- Leadership (Programme Representative, Year 2)
